

NURIT[®] 8000

Wireless Palmtop Solution

THE PALM-HELD TAKE-ANYWHERE SOLUTION FOR E-PAYMENTS ON THE SPOT

In a tough economy, smart retailers, entrepreneurs and merchants go to where the business is! Like you, they understand the need for mobility and the advantages of making life fast and easy for time-challenged consumers. Technology can help your business keep pace, particularly with a pay-anywhere solution. Cut the cord. Get outside the store. Why make patrons hand over credit cards, when they can pay right at the table? Take refreshments and souvenirs conveniently down to fans in their seats! Give your taxi and limo riders an easier, safer payment alternative. Think about how such transaction flexibility can increase sales and boost satisfaction. Then think about Lipman... and the proven NURIT Family of transaction-enhancing solutions.

THE SLEEK, COMPACT, LIGHTWEIGHT DESIGN DELIVERS HEAVY-DUTY PERFORMANCE

- It's the smallest full-featured hand-held terminal available today.
- Wireless technology keeps you mobile but always connected.
- A backlit keyboard and large graphical backlit display are easy to read in the dark, and an optional intuitive touch screen interface makes learning and operating easy.
- Customer-activated operation means consumers hang onto their cards.
- Built-in PIN pad and optional smart card reader protects both you and your customers.
- Optional Infra-Red (IrDa) port.
- Can handle multiple payment types: credit, debit, T&E, EBT, check verification, guarantee and truncation, pre-paid cards, loyalty/gift cards, smart cards and proprietary cards.

NURIT APPS[™]

- Web-enabled back-office functions improve reporting and management.
- Electronic signature capture speeds the transaction and archives the image.
- Customizable software lets you develop applications for doing business your way.
- "Store and forward" provides offline capture and future upload of transaction information, enabling continued operation even in low or no coverage areas.
- Age verification software.

NURIT[®] 8000

Wireless Palmtop Solution

TRANSPORTING YOUR BUSINESS TO A WHOLE NEW LEVEL

The NURIT 8000 Wireless Palmtop Solution not only feels comfortable to hold, it's just the right fit for your business. Fast and flexible, it's everything you need in a compact handheld transaction solution. No phone lines. No hassles. No clutter. And, virtually no waiting. The NURIT 8000 is ready when you are to process your customers' electronic transactions quickly, easily, and above all, securely.

A MASTERPIECE OF FORM, FUNCTION AND PROFITABILITY

With so much speed, power and performance packed into a tiny footprint, the NURIT 8000 will amaze you with its ability to satisfy your needs. Its brilliant ASIC chip design reduces size, cost and power consumption without sacrificing functionality. In addition to lowering your total cost of ownership, the NURIT 8000 provides a powerful new m-commerce Internet framework. Use it to introduce profitable revenue-generating programs, such as on-screen advertising, loyalty applications, coupons, incentive-promotions and more.

SAVE TIME, SAVE MONEY, SAVE CUSTOMERS FROM FRAUD

It's a payment device, a management assistant, a handy productivity tool. It can also support third party applications, such as address book and notepad, plus messaging capabilities. It's like having a working mobile office right at your fingertips. The NURIT 8000 works hard and smart to eliminate redundant equipment. It processes a full range of payment transactions at the highest levels of security, especially since customers swipe their own cards. Once again, Lipman technology delivers: enhancing the consumer transaction experience every step of the way.

Be sure to ask your service provider how the NURIT 8000 Wireless Palmtop Solution can satisfy your demanding customers' needs today and tomorrow, while improving your business performance. To find out more about the complete NURIT Family of transaction enhancing solutions, call Lipman toll-free at 1-800-454-7626 or visit us at: www.lipmanusa.com
